

Model Code F2780

date of issue 07-04-26 revision 00
revision of 17-06-26 (the present replaces any previous versions)

Designer: centro studi interno

Structure: pinewood, beech-wood, multilayer and plywood coated with ecological polyurethane foam covered with 100% polyester layer, additionally wrapped with thermo-bonded textile fabric coupled with cloth.

Spring system: elastic webbing

Seat Padding: polyurethane foam with encased pocket springs, covered with feather blend. Additional covering in thermally bonded fiber combined with cloth.

Back Padding: backrest cushions in ecological polyurethane foam with differentiated densities, covered with a feather-blend mattress pad. Additional covering in thermally bonded fiber combined with cloth. Support roll in polyurethane foam.

Arm Interior: in ecological polyurethane foam covered with 100% polyester padding. Additional covering in thermally bonded fiber combined with cloth.

Removability: entirely removable coverings

Sewing: coverings are feasible with tone-on-tone matching stitching or, upon request, with contrast stitching in the colors available.

Standard feet: PVC, 5 cm high.

Optional versions: backrest cushion (KI5) in feather blend. Lumbar support (656) in feather mix.

Please note: The *deep* versions differ from the *standard* ones due to a greater seat depth and overall depth.

Due to this difference in size, deep modules cannot be linked directly to standard ones.

To link them, it is necessary to insert a version such as the **Deep Side Corner Ottoman (CK8)** or a **Deep Side Corner (EP8/EP9)** version.

In the synoptic diagram, the highlighted sides indicate the sides without armrest that are compatible with all deep versions.

The optional **(656) kidney rest cushion** version can also be made in leather.

Density of seat and back kg/cbm (±5%) ⁽¹⁾

Markets	Seat	Back
I	30+molle	inserto 23
D - NL - CH	30 sostenuto+ molle	inserto 25
USA - California	30+molle	inserto 23
GB	35+molle fire retardant	inserto 30 fire retardant
Others	30+molle	inserto 23

Note: when no values/contents are specified in the chart, please refer to 'Others' field/area
⁽¹⁾ Density: volume mass apparently determined on materials without any kind of covers and according to the UNI EN ISO 845 regulations. Indicated values refer to production averages; the Company reserves the right, if needed, to make changes to the declared technical characteristics. Before use, it is advisable to look at the SAFETY INFORMATION TECHNIQUE for info regarding use and protection of people and of the environment, in compliance with existing EEC regulations.

We reserve the right to amend materials, covers and product dimensions shown on the data sheet, for production purposes and without prior notice. The line drawings, graphic information, dimensions, and volume provided are approximate and may vary due to the tolerances allowed in the production process with a view to improvements. The following maximum load values are recommended under normal use: armchairs max. 120 kg, 2-seater sofas max. 200 kg (2x100 kg), 3-seater sofas max. 240 kg (3x80 kg). Exceeding the recommended load may cause a structural failure of the sofa/armchair or its components.
